**Subject:** China – Europe Galileo Industry Seminar – Sincere thanks

Dear Minister,

We, at OREGIN, appreciated the opportunity to participate in the China/European Galileo Industry Seminar, 17/18<sup>th</sup> December 2002.

We would particularly like to thank you for your superb hospitality and excellent organisation. We see this at the starting point for many attractive opportunities for co-operation between Chinese and European high technology organisations and look forward to furthering our activities together.

OREGIN now comprises over 100 industry members, industrialists and groups of industrialists with a great experience in satellite navigation, from 14 European countries, representing the entire value chain (chip designers, integrators, equipment manufacturers, service operators, software developers, and even the car or mobile communication industry).

Should any of your organisations wish to have contacts with European Industrialists, such as regarding the EC's 6<sup>th</sup> Framework Programme calls for tender, we would be delighted to supply them with any information they may require.

Yours sincerely,  
祝商安

Pascal CAMPAGNE  
Coordinator of OREGIN
