WHAT IS OREGIN ?

WHAT IS OREGIN ?

The **OR**ganization of **E**uropean **G**nss **I**ndustry of equipment and services, has been created in Feb 1999 for:

- information exchange
- cross-fertilisation of expertise
- point of contact/industry voice for the European Institutions
- publicity and lobbying
- fostering co-operation with non-European industries creating opportunities in overseas and global market

MEMBERS

- **More than 130 members**
including international industry organisations and national groups
(close to 250 industrialists represented)
- **Industries from 15 European countries**
- **From SMEs to biggest groups**
- **Associating Universities**
Research labs since 2003

MEMBERS PROFILE (1/2)

- **Chip producers, Equipment manufacturers, Software developers, Service providers, Integrators, Telecom and Car manufacturers, ...**

MEMBERS PROFILE (2/2)

- Experienced in all kinds of applications:
 - Safety of Life, Governmental, Professional, Mass markets
 - Air, Maritime, Rail, Road, Intermodal, Pedestrian, Leisure, Geodesy, Scientific, Agriculture, Space, ...

NATIONAL GNSS INDUSTRY ORGANIZATIONS

- **ASA - Austrian Space Agency** (Austrian Industry)
- **Navigate Consortium** (Italian Industry)
- **SGIC - Scandinavian GNSS Industry Council** (Scandinavian Industry)
- **GSS - Galileo Sistemas y Servicios** (Spanish Industry)

EUROPEAN UNIVERSITY RESEARCH CENTER

- **Centre for Communication Systems Research**, University of Surrey (UK)
- **GIS Research Centre**, University of Glamorgan (UK)
- **Institute of Engineering Surveying and Space Geodesy**, University of Nottingham (UK)
- **Lulea University of Technology** (Sweden)

MISSIONS AND OBJECTIVES

- To support the development of GALILEO users segment equipment and services,
- To provide public authorities with technical and marketing expertise and support in analysing the impact of GALILEO architecture on user equipment and services,
- To support the necessary efforts on standardisation and certification for the development of user segment equipment and services,
- To foster the identification of business opportunities and define the necessary actions to ensure their success,
- To foster partnership between industrialists and in particular between large corporations and SMEs,
- To rapidly and efficiently circulate relevant information,
- To promote EUROPEAN industry, technology, products and services,
- To encourage participation of universities and research centres in R&D activities related to GALILEO developments.

What do we expect from Galileo?

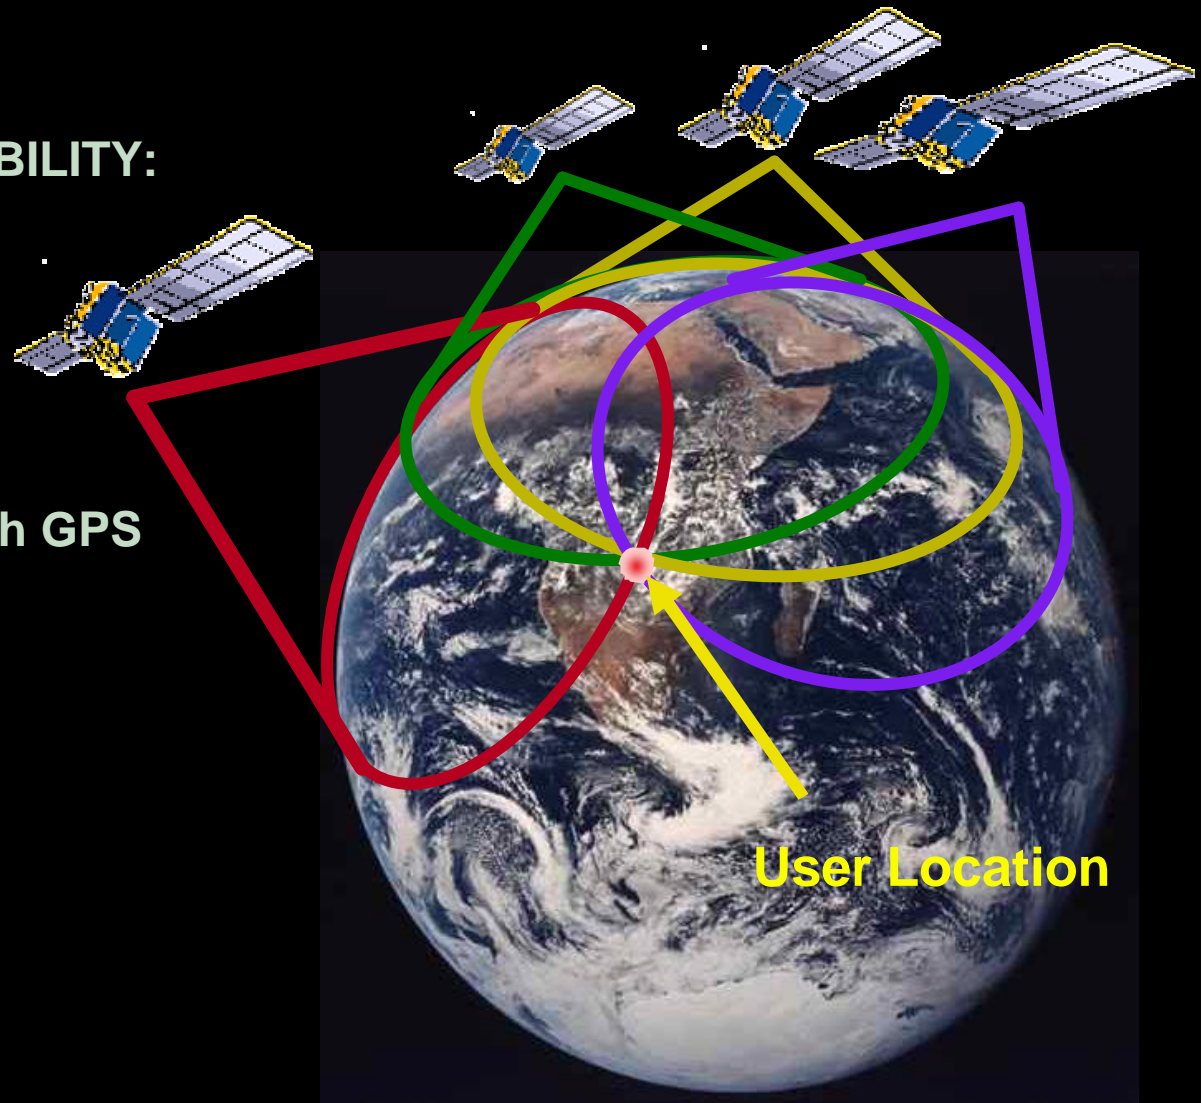

GALILEO TECHNICAL ASSETS

Galileo will offer optimum

PERFORMANCES and RELIABILITY:

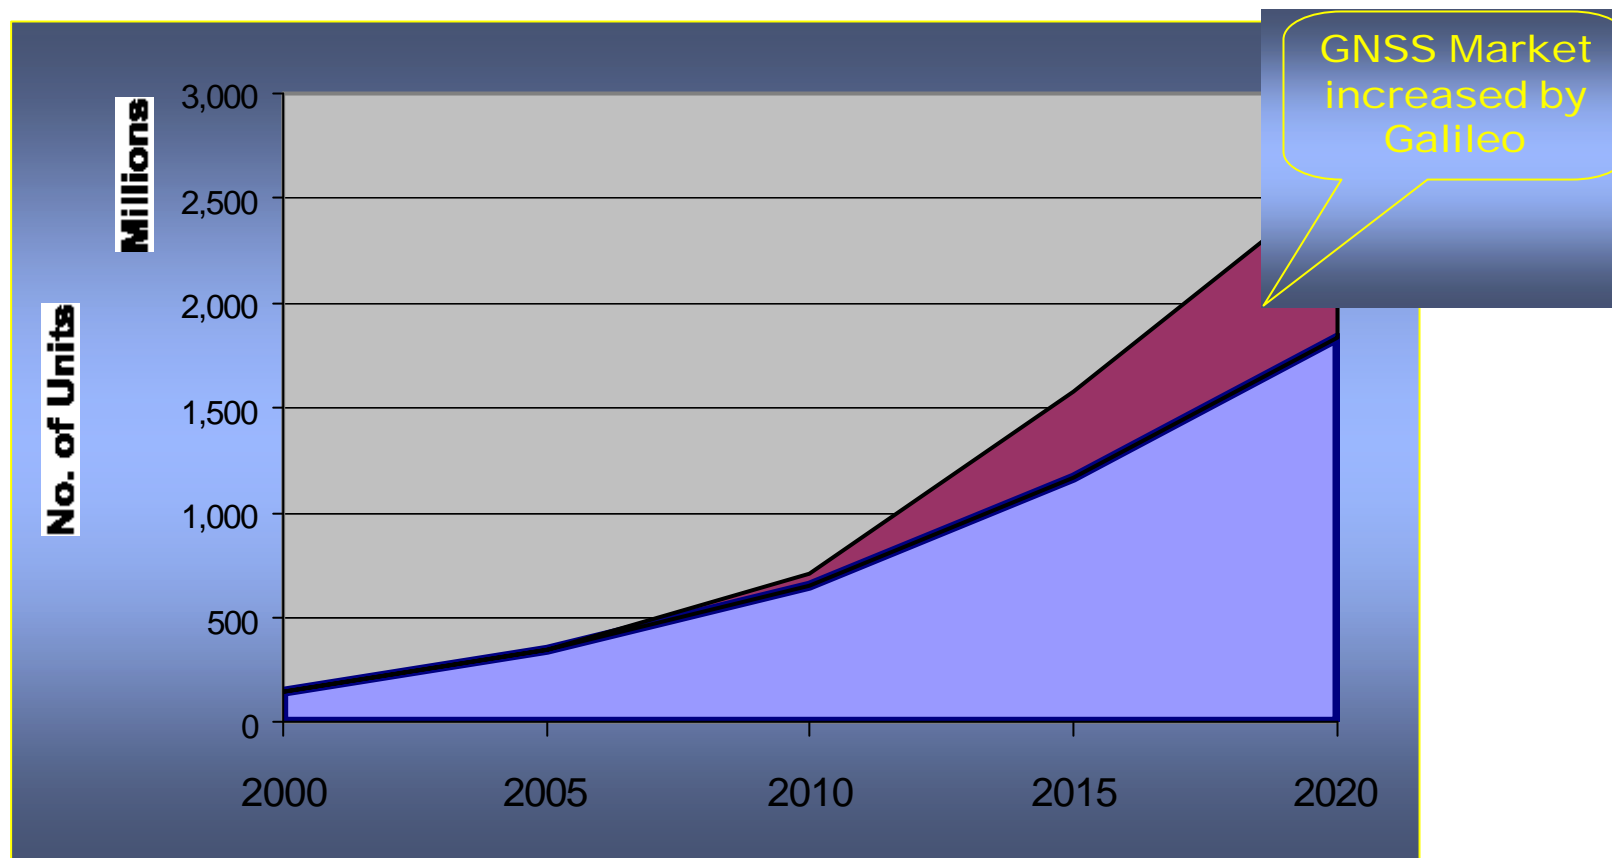

- a high level redundancy with GPS (technical & political)
- integrity
- availability
- continuity of service
- accuracy
- security

GALILEO MARKET

GLOBAL GNSS MARKET SIZE

Source: EC Galileo Definition studies

- GALILEO Public-Private Partnership is creating a Market Pull rather than a Technology Driven system
 - GALILEO, as a European System, already motivated the European Industry to make up for lost time in Satellite Navigation market
 - GALILEO will provide Global services, generating Brand-New Markets around the World
- ➡ **Market optimisation requires inter-Region cooperation on both Institutional and Industry sides**

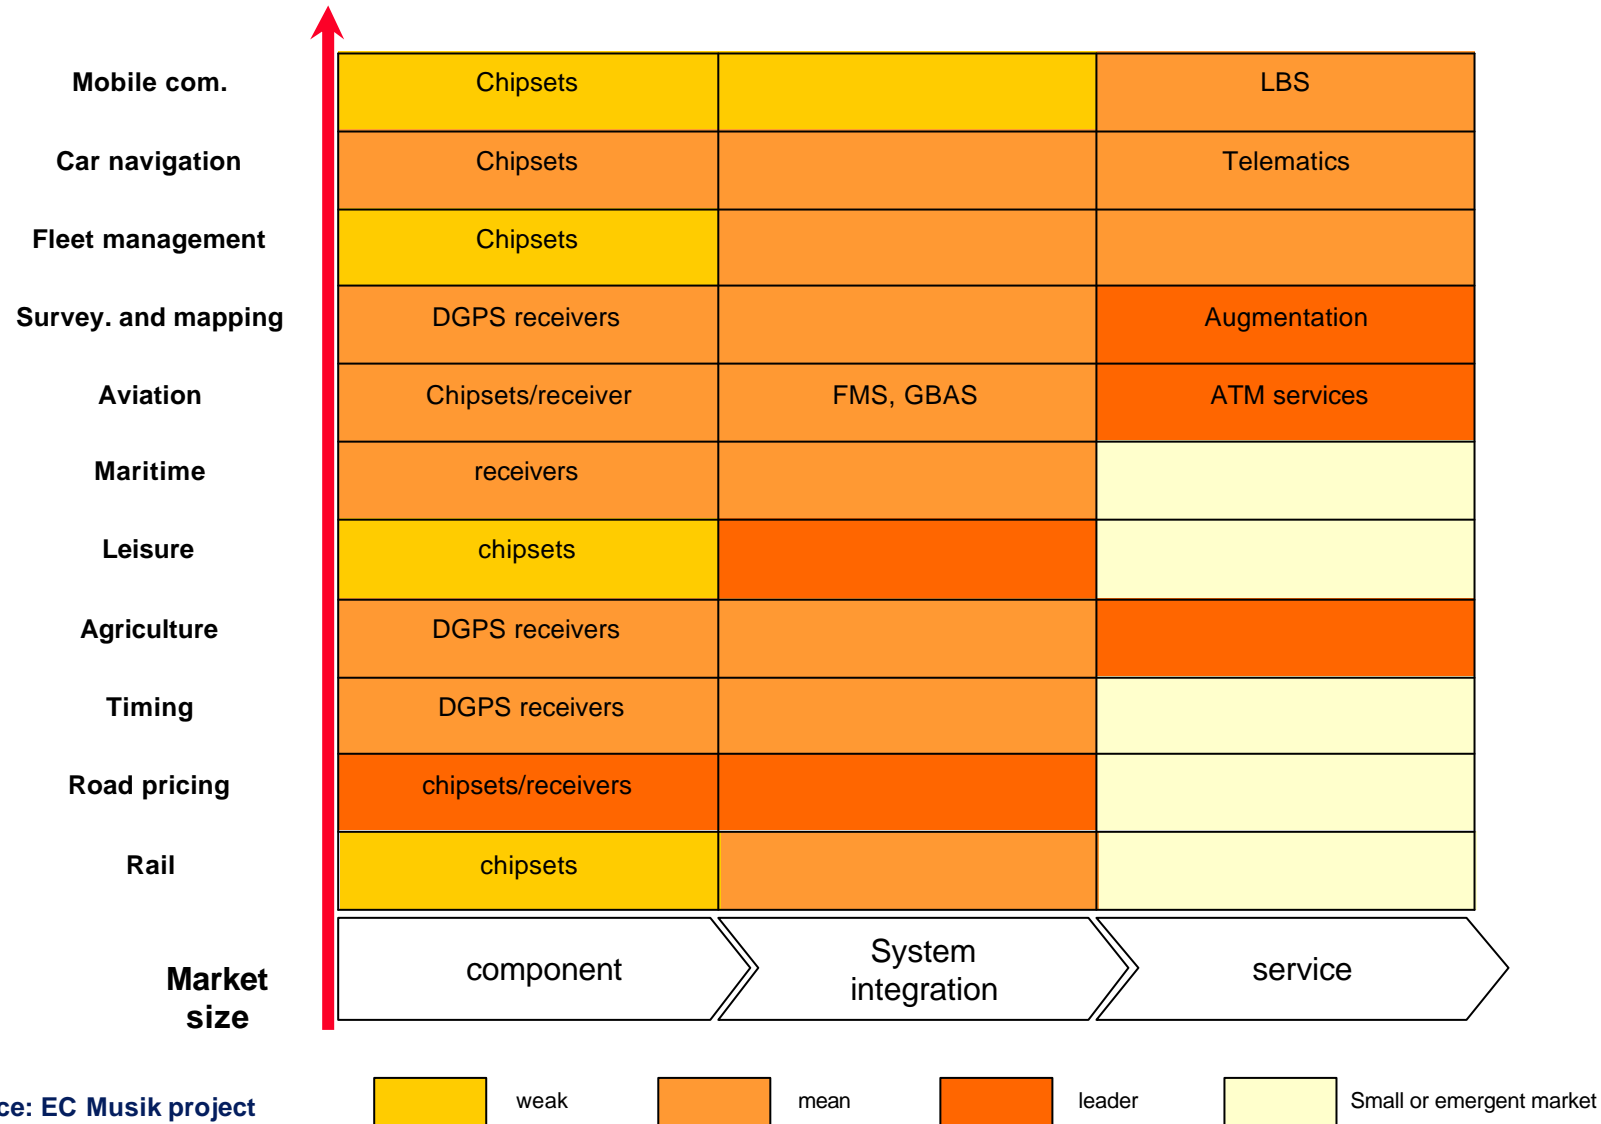

EUROPEAN INDUSTRY OFFER

- EU Industry is leading the world in many areas of technology

- EU Industry, through its active participation, is well aware of latest Galileo's infrastructure (signal and services) development
- It is capable of the complete range, from chipset design to manufacture, integration and certification of major systems and provision of innovative services

EUROPEAN INDUSTRIAL CONTEXT

Source: EC Musik project

NEED FOR COOPERATION

- **Cooperation is obviously the best way to increase cost efficiency and competitiveness of Industry**
- **Combining our Competencies and our Markets, is a key to increase both markets and generate huge benefits for both Regions and Industries**
- **Today, OREGIN can help you to find the European Partner you need, being the interface of national/regional organisation, or answering direct requirements from industrialists**
- **OREGIN proposes to extend its organisation to non European Industry, and to create the “OREGIN World” association with the support/leadership of non European Industry**

CONCLUSIONS

CONCLUSIONS

- **OREGIN has been created to back up Public efforts, with the ultimate objective to jointly pave the way to the success of Galileo**
- **Cooperation between European and Brazilian Industry must be pursued and could generate huge mutual benefits**
 - **Combination of our skills**
 - **Complementary markets**
- **OREGIN would be pleased to facilitate the creation of partnerships and could, as of today, help Brazilian industry to find their European partners**
- **We would be happy to know your interest about the creation of an “OREGIN World”**
